PROFILE

I am a BCA graduate with good proficiency in JavaScript, Node.js and Mongo-DB. I have practical experience in frontend and backend development. I have successfully built several projects using REST-API and Mongo-DB. Currently, I am looking for a Java Developer or Backend Developer position to utilize my technical skills in software development.

EDUCATION

Saurashtra University

Rajkot, Gujarat

Bachelor of Computer Application – (BCA)

CERTIFICATIONS

- In GeeksforGeeks Saurashtra University Ranking for Solving Problems. ([Link](#))
- Advance Java Development ([Link](#))

PROJECTS

Instagram–App–Clon ([Link](#))

Apr 2025 – Present

- Developed a full-stack MERN Instagram clone using React.js, Node.js, MongoDB, and Tailwind CSS.
- Replicating core features like user authentication, real-time posts, likes, comments, and Reels.

GPS–Tracker–App ([Link](#))

Dec 2024 – Mar 2025

- A Real-time GPS tracking system using a secure REST-ful API with Node.js and Express, implementing user authentication and role-based access using JWT to handle user data, device login, and tracking endpoints.

Past–App ([Link](#))

Jul 2024 – Aug 2024

- Past App is a sleek, user-friendly application built with Vite and React, designed to help users track and reflect on their past experiences.
- The app features a modern interface, allowing users to easily login events, memories, and insights.

Leet Metric ([Link](#))

Nov 2023 – Dec 2023

- The Leet Metric feature in this Java project is a utility that converts standard English text into "leet speak" (1337), a stylized form of writing commonly used in hacker and gaming communities.

ACHIEVEMENTS

- Leadership, Management & Team Working in Project.
